FOR IMMEDIATE RELEASE

Library Renovation Almost Complete

Kerrville- The City of Kerrville is pleased to announce the Butt-Holdsworth Memorial Library (BHML) renovation is almost complete.

BHML's renovation started with the closing of the library on Saturday, May 21, 2011. Library operations were moved to the Kerr Regional History Center where services started on Tuesday, July 5, 2011. It is time to bring the operations at the History Center to a close in preparation for the return to the main library. Saturday, February 18, 2012 will be the last day of library operations at the Kerr Regional History Center.

In preparation for our grand reopening scheduled for Saturday, March 31, 2012, library staff will be transitioning service back to the main library by moving books from the basement back into the library.

Staff offers many thanks to the patrons for their patience during our time of reduced operations. We also extend thanks to the Kerrville Genealogical Society for the use of the History Center for the past six months.

For additional information, please contact Daniel Schwartz, Library Director, at 830.257.8422.
